A memoir from the Great March for Climate Action

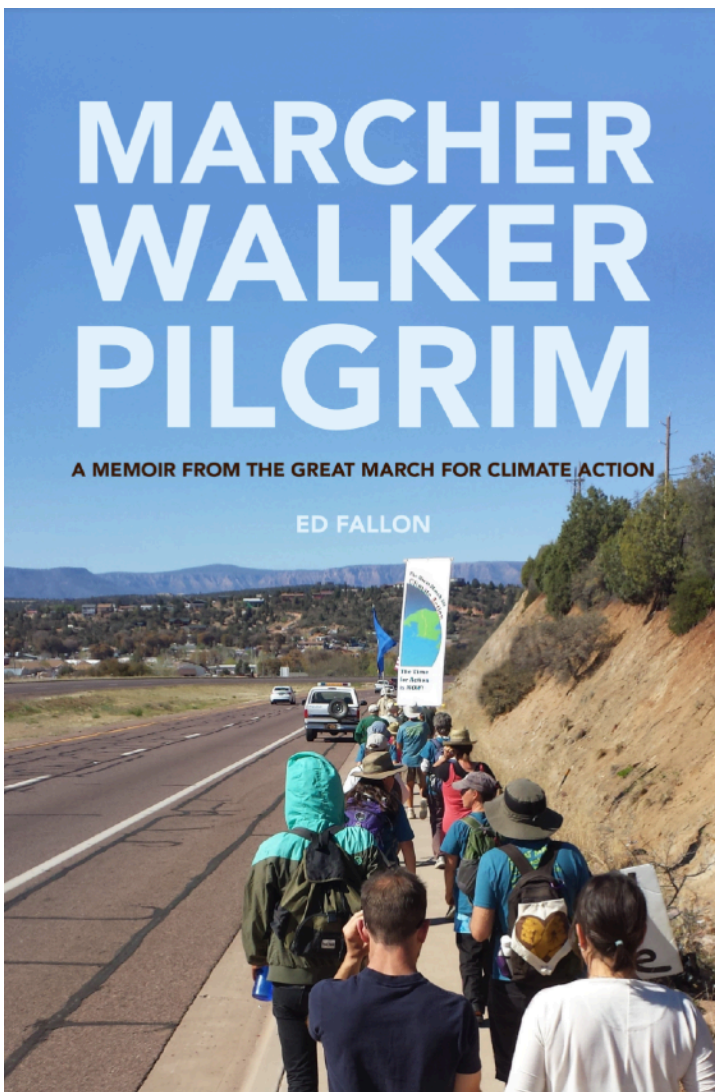

by Ed Fallon

Reading and Book Signing

Saturday, Dec 8, 10 - Noon

The Makers Loft

119 1/2 E Washington, Iowa City

On an 8-month walk from LA to DC in 2014, dozens of marchers became a mobile village, sounding the alarm about the climate crisis.

Through humor and candid introspection, Ed shares how the experience brought into focus his lifelong search for love and meaning, even as intense, interpersonal dramas threatened to tear the March community apart.
