

# Marcher Walker Pilgrim

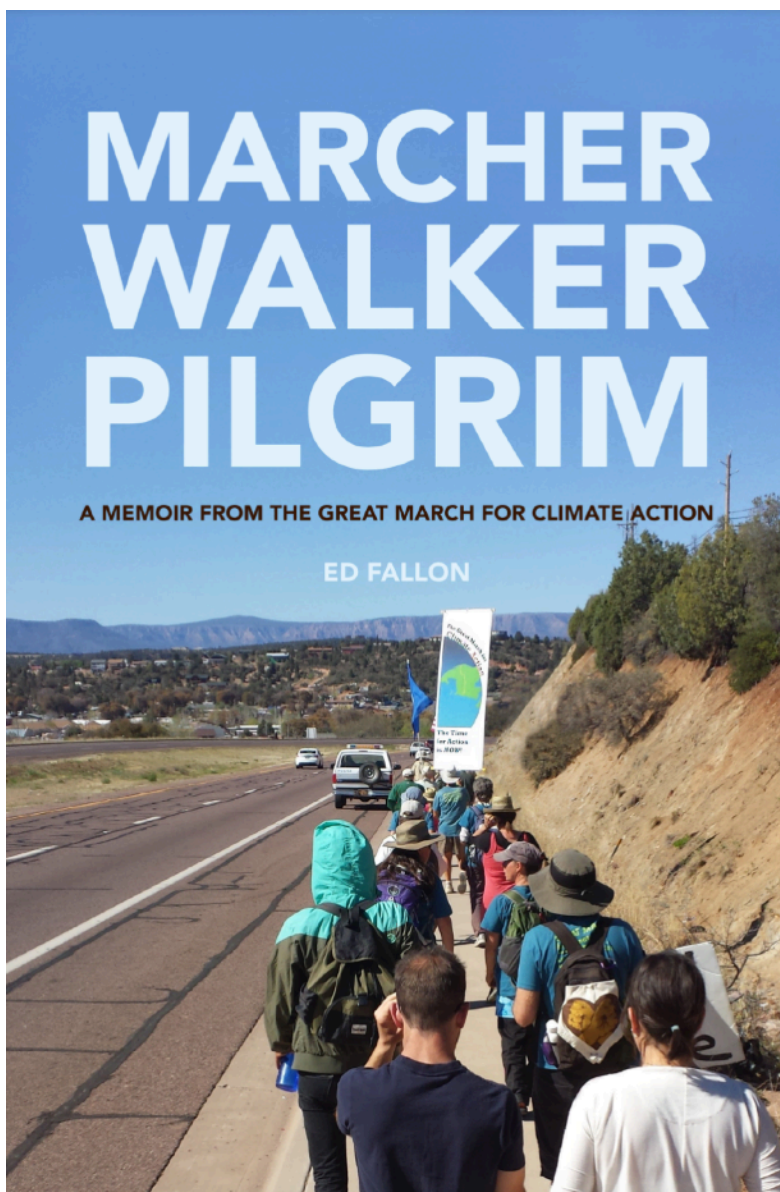

A memoir from the Great March for Climate Action

by Ed Fallon

## Reading and Book Signing

Sunday, Dec 2, 2 p.m.

500 E Locust St, Des Moines

On an 8-month walk from LA to DC in 2014, dozens of marchers became a mobile village, sounding the alarm about the climate crisis.

Through humor and candid introspection, Ed shares how the experience brought into focus his lifelong search for love and meaning, even as intense, interpersonal dramas threatened to tear the March community apart.
